

# NEXUS LOGISTICS

## **NEXUS LOGISTICS COLLABORATING WITH ALLIED PICKFORDS TO CREATE CHOICE & EFFICIENCY IN THEIR DOMESTIC SUPPLY CHAIN.**

Nexus Logistics, a joint venture between Ports of Auckland and Netlogix Ltd, is a national intermodal supply chain solution provider offering container logistics and distribution solutions via a port neutral network and comprehensive combination of road, rail and coastal transport services.

Nexus is challenging the industry status quo by taking the unprecedented approach of giving its customers the choice: Nexus works with all New Zealand ports and has developed a flexible and comprehensive combination of road, rail and coastal transport capabilities and services, including key supplier relationships with shipping lines and Kiwi Rail to provide an efficient & cost-effective nationwide end to end solution.

By offering a mix of multi modal transport options, an integrated hub network & nationwide port flexibility Nexus can offer customers like Allied Pickfords the best solution for their business plus the ability to remove waste & fully optimize their supply chain requirements.

### **Nexus Logistics provides customer value through;**

- Comprehensive national coverage providing independent, intermodal container logistics and distribution services
- Enhanced customer choice offering multi port, multi modal, optimised supply chain solutions
- Value add services that facilitate efficient & cost effective cargo flows
- Strategically located nationwide network of intermodal freight hubs
- Reduced complexity & improved risk Mitigation
